I the dark

e

I am here two meters away

f

oh I see

but how do You know that

e

i just express

now you confess

f

I don’t see anything

but I guess I know where you are

two meters away

e

I’m walking towards you

step

step

step

f

so it happened huh

e

yes I blind folded myself to prepare for the end

f

you knew

e

well the scientists talked about it

how the sun would die

the end of time

f

I had a lamp

e

a lamp

f

yes , a lamp

a Tesla

e

but what good is a lamp

all systems are down

f

as I said you just hold it in your hands

I came to this place

I know there are lamps here

you just hold it

your body gives it electricity

Tesla made it

e

oh I heard of that

but I thought his inventions went lost

f

well it was

but some one revived it

a curious fellow named Profit

Meryl profit

where are the lamps

e

I’m coming towards you

step step

Grabs his hand in the dark

there you are

f

oh, you scared me

but where are everybody

e

people group up in small amounts

it’s safer that way

no one argues Or anything like that

come with me

I know a place

f

where are we going

e

lamps

now, how do we go about

how do we lit the lamps

f

well, you just rub your hands for ten minutes

and wet them afterwards

before that you hold a piece of medium small stone in your fist

back and forth

also you rub in some sulfur

so you rub in the sulfur

I have it here in my pocket

here

now rub it in good

They rub

e

here are the lamps

but I always thought we manage to keep our electricity

if it wasn’t for that terrorist attack

damn saboteurs

jokers and clowns

those bastard pranksters

I tell you everything is their fault

from the beginning til the end

bastard jokesters

here

take this

f

what is it

it’s a small box

e

inside you’ll find a lamp

He opens it

And the lamp in his hand is lit

f

Jesus

I can’t see

We see them both

They rub their eyes

e

I haven’t been able to see since the end

f

it’s funny

I call it the end too

it really is the beginning

I remember everything thou

e

yeah I talk too

what was it

they had something they believed in

before the end

in America

f

you mean We had something

e

yeah We

I think you’re referring to Scientology

ooh, that’s what it was called

f

didn’t you know that

e

no, just realised

what was it

yeah they believed

f

you mean we believed

e

yeah we

we believed in it

like ‘ where does the guess come from’

that ‘ we are perfect creations’

‘of the concept’

f

the concept , yeah

the others didn’t like that

e

yeah, well, that’s what it was for

to call our maker

like’ we are creations’

and it’s in the speech

‘why would the wrong thing come out’

Takes a lamp of his own and holds it lit

f

were you a believer

e

I don’t know

I think so

f

let’s see

eeeh, yeah

I was

I thought all the time

e

and even we were divided

talking or thinking

f

well I call it thinking

I even moved my lips

but I was alone always

in the end I had no friends

I was free

loved everyone equally

e

yeah, I remember having friends

god I burned everyone else

I defended them so hard

against people

they were my everything

I had a girl

ah, she was fine

she turned into a bisexual

she didn’t want me anymore

one of those who only dated bisexuals

f

yeah there was this pride festival

what was it

LGBT

e

oh yes

that existed

Lesbian, bisexual gay, transsexual

shush

quiet

Sound of steps closing in

someone is coming

Turn off the light

Dark

g

hello

anyone there

I’m looking for some lamps

f

Tesla lamps

e

shh, shut up

g

hello

who’s that

e

just quiet

g

Finds a small box opens it and hold a lamp

Lamp is lit

oh my eyes

e

he looks ok

hi there friend

I see you found them lamps

g

I did could see a little I. The dark

f

yeah, I did too

e

yeah, the eyes adapt

I could see I like the dark just fine

g

oh there you are

I just got here

that moment

were you born there too

e

oh that moment

let me see

ehh.
yes

yes

g

and you

f

yes me too

born that moment

ah, the beginning

you talk

g

yeah I talk

f

we were talking about the Scientologists

how we talked

and the others who warned us

e

it was that guy everyone talked about

who was science fiction

ooh that’s interesting , wait a minute

Christ I forgot

I can’t seem to recall

f

no, I don’t remember

g

yeah how you could speak honestly and suddenly you’re condemning

people and cursing

f

yeah we manifested in the end

g

what goes on out side

all three

effects inside

f

yeah like you emptied yourself from grudge and crap and shit

e and g

yeah you’re full of shit

All laugh

f

I bet the other didn’t survive

e

oh the others

the opposition

didn’t they do to space before the end

g

yeah like they thought there exists life on other planets

f

there exists life alright

e

not intelligent life

I mean it’s homo everything

it’s inscripted in the atmosphere now

g

yeah like they find a planet with life

but everybodies cows

e

or sheep’s

f

I bet they became shepards in the end

g

well they have each other at least

yeah universe filled with animals

f

I mean it says Homo sapiens

human

and home

put one and one together

Enter Alpha, beta and Alphabeta

Holding their own lamps

beta

hello strangers

I am Alpha

and this is Alpha beta

the third one is silent

Alpha

I don’t talk

I didn’t mean that

it’s ok

beta

yeah she’s like that

f

Aside to the other two

I think some of them survived

I wonder, how stupid they are

Alpha

I’m in symbiosis

g

I Bet she is

f

as if

e

she’s a telepath

that one speaks for her

g

I don’t think they understand

e

watch out

they’re bad news

f

everybody understands

g

yeah she just is busy thinking and telepathizing

yeah she understands

beta

I understand

Nods towards the Alpha beta

she doesn’t

Alpha

I don’t speak

we are women

e

I bet you all my possessions

she doesn’t have a womb

f

I am a womb man

a woman

Alpha

pffft, that’s a joke

beta

yes you are better

Alpha and Alpha beta

yeah you are better

alpha beta

yeah tuff on you

you’re better

f

what the shits are they talking about

what are you talking about

who are you anyway

beta

I come to lead you sheep

I am leader

Alpha

yes she’s Alpha

she’s the leader

beta

yes I’m Alpha

Alpha beta

Aside to the three

I make the Alpha bet

To all

I am Alpha beta

she is beta

beta

you mean Alpha

Alpha

yeah she’s Alpha

g

what the fuck are you three babbling about

we need to fly

we've been here awhile

how long have you been here

Alpha

there four years

g

years

you mean like the sun

sun years

which sun are you referring to

Alpha

she doesn't understand

beta

I am Alpha

I am the sun

you are all circle around me

Alpha starts turning twice

you see

she can become any planet

Alpha beta

but we have a problem

you see

we might have survived the end

we remember

we are symbiosis

e

my ass

you three are not in symbiosis

Alpha beta

we need to eat

we never ate before

you ate for us

and crapped for us

now we need to eat for our selves

and if we don’t find anything to eat soon

Alpha pulls the others back and they whisper

Some murmuring

g

listen, I have a bad feeling about this

I mean the Alpha girl looks at me funny

e

yeah I noticed too

f

what do you mean

they’re not dangerous

they’re just hungry

g

no, we better find them something to eat

e

I think they want to lead us not to eat us

f and g

they want to lead us not to eat us

g

sounds like it

listen

Alpha, beta and Alpha beta

yes, speak

g

you may lead us

well follow

Alpha

no, not me, her

she is Alpha

beta

the other two

no

Alpha

I mean Alpha

she’s Alpha

beta

ok, first

make a fire

it’s cold

f , e, g

cold

f

why , it’s it warm

well

why don’t you take our coats

e

here’s my jacket

They take the coats

beta

that’s better

you bow down to us

you’re mediocre

not bad

Alpha beta

but you are still better

Alpha

no, we don’t like

all three

toff on You
you are better

f

well you’re not supposed to be worse either

Alpha

Now annoyed

what was that

you don’t know anything

we have powers

we know some stuff

there’s gonna be clouds and they’re gonna brighten up this place

and then well have no use for you anymore

well eat you

g

clouds

and how do you know that

Alpha

you’re not worthy

we are the good people

I have a mountain

she makes lava

Alpha beta

yes I have two volcano’s

both active

g

well, we go else where

you keep the jackets

Exit f, e and g

Alpha

I get paranoid

they maybe conspired

they made us go to symbiosis

beta

well the soil here is not fruit bearing

AlphanBeta

yes , I tried ten times to sow seeds

it’s impossible

and I don’t think they see us as small ones

or elders

we’re probably just same

alpha

no, we’re not superficial

they are

they see us same

nature is not here anymore

that’s why were hungry

they looked nice

I like to be their friend

They go after

Exit the three alphas

Dark

Enter p and r in the dark

Sound of steps

p

it’s gonna brighten up

a few days

now were are the lamps

ahh

here

They hold to lamps

Lamps on

They rub their eyes

p

now the lgtb

we need to join forces

r

yes, but what if they don’t accept me

I mean it’s not quite like I kiss them and cuddle with them

p

no, no you’ll be fine

just play along

we just say we’re LGBT

r

but what it they ask which one

p

oh don’t worry

just say LGTB

‘I’m LGTB’ and ‘he’s LGTB’

r

I don’t understand

p

yeah that’s good

just say that

like we can’t make up our minds

they’re all so good

Both L G B and T

r

so I’m all of it

I’m just LGBT

fine

I’ll be that then

p

come on , let’s go

Exit Both
and Dark

act 2

Lights on stage

I just like men

they are great

they decide

I’m just this

Alpha, Alpha beta and beta

we are inferior

Alpha

yes

transman

well you might be gay and not know it beautiful

everybody is a little gay

I mean you hang with these to girls all the time

gay man

yeah I've seen you three around

Enter
P and r from the left corner
Care fully

transman

lesbian

theres a New World Order in case you didn't know it

it's our world

if you want you'll have a place

you are women , you are open minded

Alpha

we are superior to you

not you

you are women

but these homos

they are like pretending they are women

gay man

I’m a woman, what’s wrong with you

it’s my right

f

Joins in

yeah, it’s like, the essence foregoes the existence

gay man

yes it’s philosophy

we have a womb

Alpha

you all have a womb

what you share the womb

trans man

we are all one

lesbian

yeah he has a womb

gay man

I’m a woman

g

Joins in

yes I’m sort of pentagon

all in One

I am woman a lady a gentleman a beast and an angel

a complete man

Alpha

how are you a woman

g

I don’t see any refined sentiment in you

maybe you’re not a woman

do you have a womb

beta

what do you mean a womb

it says in science

you like put you penis into us man

and we become pregnant

trans man

let’s all just get along

come on

Alpha

shut up you

you don’t talk to me like that

let’s go

f

you don’t have to go

I mean we can settle our differences

there are not many people here

the clouds came

we don’t have to be alone

just stay

To the lesbians in feather

I like your outfit

you make it your self

lesbian in feather

oh you

come here

f

no no

I don’t swing

lesbian in feather

come Come, dance with me

They start dancing

gay man

To Alpha

come dance

Takes her hand

come

Alpha

Gets angry

no

you leave me alone

LET GO

Everybody freezes
Silence

A moment

I just….

…I just

She starts crying

Sits on the ground

Silence except for her crying

Awhile

A moment

p

Tip toes in from the left corner

excuse me

No one notices him

A moment

excuse me

No one notices him still

sorry to disturb anyone but…ehh

Alpha

that man is talking to you

Sobs

Everybody turns

p

ah yes, hello

everyone

HI

p

I am P

this here is my friend R

we , EEhh how do I say this

I hope were not disturbing you by the way

I am would like to hope to maybe . .

ehh. . we would like to. .

ehh.

gay man

get it out man

we would like to eehhh...

eehhh

gay man

Christ

Silence

I mean ...

ehh...

you are LGTB , aren't You

this is the Old Pride

the old promise

the one thing that would survive

the group

yes, we are LGTB

p

you are?

the group

Lesbian, Gay, Transexual, Bisexual

trans man

or I think L G B T

gay man

no it’s L G T B

trans man

T B ?

not BT

p

I really don’t mind

ehh...

can we join You

gay man

which one are You?

L G T or B

trans man

yeah man

which one are you

R

we are all of it

LG B and T

p

yes

I am p and he is r

trans man

all?

all of the group

all ?

f , g, and e

it’s like the pentagon

man and woman and angel

P

angel is fine

gay man

oh you’re angels

p

no no

not angel

Looks back at R

Silence

I mean I don’t know what you mean by angel

gay man

oh they’re like idle man

in between

they’re like L G B and T

R

yes we are that

gay man

they get blame for all sorts of things

trans man

yeah they like Children a lot

The group starts crying all of them

the group

there are no children any more

gay man

Sobbing

yeah the angels loved them so much

they got blamed for pedophily

trans man

and rape

they liked to bang

lesbian

just pretend

like no penetration

just bang

some called them rapist

p and r

one moment please

They go to a corner and whisper

Murmuring

Silence

After a while

They come back

p

P and r look at each other

we are angels

beta

you are no angels

they don’t have genitals

Everyone gathers around the two

They walk backwards

p

no no we don’t what trouble

r

Starts crying

please no

gay man

let’s see

trans man

let’s have a look

g

UNLESS

unless

Everybody stops

everybody

unless what

f

unless they’re philosophy

e

it’s the original

gay man

but they might be impostors

trans man

While Alpha still is crying

tell me, did you get blame for pedophily

gay 2

and rape

do you bang

r

Aside to p

I think it's safe

YES

p

shut up, just shut up

r

he got blame for pedophily

g

they say Santa was Philosophy

and that guy what was his name

Christ, I can't remember his name

anyone know who I'm talking about the guy who paid a lot

Christ

ah, forget about it

gay man

Santa

hmm rape and pedophily

what do you say guys

do we let them join us

lesbian

R

and P

LGTB and R and P

the group

LGBTRP

LESBIAN, GAY, BISEXUAL, TRANS, RAPIST, PEDOPHILIAC

lesbian in feather

yeah that’s sounds about right

now

let’s dance

Music comes back on

The group dances

Exit group

Music fades

Alpha is sitting and playing with her foot
Alpha beta and beta stand beside her

F , g, and e stand in the front left and whisper

And p and r in the left corner looking

After a while

g

now you

both of you

come forth

They come forth

now, when you say you are angels

e

we saved your ass you know

f

yeah , they would’ve taken of all of your clothes

g

wait a minute

which are you really

Alpha

they are those two

R stands fo rapist and p stands fo pedophiliac

pedo and rapist

g

well

Moment

what do you have to say for yourselves

p

I guess we have been something like that

now don’t get angry

r

pretty much she was a beast

she asked me to bang her hard

what do I know

and I was drunk

she asked for it pretty much

e

so it was just this one time then

or

r

well maybe

if you don’t get angry

f

Christ

you'll be ok

Alpha

god I'm hungry

make us food you three

or else

To her friend
Debate in silence

Murmuring

r

so we actually are lgbt

we were just joking

right p

p

yeah we were just joking

f

I knew it

you are angels

I know what that is

but if someone looks if you have genitals

it’s this angelic

i mean philosophy

e

yes I knew that

g

so you’re not rapist

or pedophiliacs

whooff, that’s a load of my mind

we thought we had to banish you

p

by the way

where are all the children

f

oh, he’s an angel alright

how cute

well sort of I’ve been child

I say so

g

I think it was like either you were short child or you were seen as one

Exit Alpha, Alpha beta and beta

e

yeah

they just were like some magician

in the end it was known

we all thought they were like us

I was a child

and we saw them as same

f

but they weren’t

not really

they were like old people

p

I’ll have you know

they stole the love

all that caring was supposed to go

to others

r

a group that were weaker

they did mistakes

p

yes they did sin and showed a lot of conscience

and had the experience

they were the children

and some goodie two shoes magician did this manipulation

r

and in the end people seems short for themselves

p

yeah, and the magicians pretended to be parents

just to teach you not to forgive the weaker

r

yeah the real children

f

Christ

g

ahhhhh, Yesss, Christ

Jesus Christ

that was his name

p

so I just am not a pedophiliac

I just knew about it and that they manipulated and

they made me dream sex with them and I got this reputation

r

and they gave me psychosis as they lured me into bed

I'm just terrified

no one would believe they even existed

such manipulations

they knew endless tricks

p

yeah and we were ourselves children and thought it was holy

f

oh wow

that's some story guys

well, there are no children anymore

there was no real judgement day

just this ending

e

or beginning

well, it’s all I the atmosphere I guess children

g

except for their story

these two

no one knows about them

f

yeah that’s something

p

so I hope you can forgive us

r

yeah can you forgive us

f, g, and e

you’re forgiven

r

sort of they played with fear and shame

p

yeah we discovered shame is blood

and someone on the stage

f, g, and e

Look at the audience

A STAGE ?!!

p

yes shame is blood and some one takes your blood

representing you and becomes the son

r

so they were called like same blood as you

like you shared that

and make them show shame

p

that's why the weird talk

like to put you in shame

talked just... I don't know... ...just funny

those bastards

r

ahh, all's well when ends well

g

well if you call a disaster well ending

r and p

ooh yess

They start debating everyone at once

Can be improvised

Exit f, g, e, r, p

act 3

Enter Van Pie
A vampire dressed with a cape with large collars
And big teeth

The following is recited poetry without music

van pie

tralla lala

tralla lala

everybody's good

it is understood

romance is the mood

romance of this my pie

lives forever and will not die

die my pie

oh will you die

I love you pie , I love you my

oh will you die, oh die you pie

a spider weaves his web

the web with so much depth

he makes his heart in time

to die

yess wants to die

I love youuu

please kill me so I can come to life
that shall expand

and contact and it stands

oh little one I understand

my web of truth

shall ensnare you

I use the tools

I make the bed

this shall be my spider web

To the audience

I do condemn each one of you

who doesn't mind the naughty ones

where I speak mind and use the tools

I saw once one bloodsucker

he lived on blood of others true

but I saw him as beautiful

and he became my little muse

I got to the romance too

I became romantically

envolved with this beauty girl

she was sweet and horrible

I wasn't such attracted but

I knew to come so closer too

I kissed her and she kissed me too

I lay beside her and on top

and we made love and we did

but she indeed a secret hid

she was a satans child but cute

I hurt her with this my tribute

you all shall know I once was

tempted to be Jesus Christ

but when I met this antichrist

her beauty such bedazzled me

that I no longer could be free

I’m stuck into this hierarchy

alone and doomed to eternity

a solo man without no friends

to be close , will be my end

I am detached and equal too

and bliss in the symbiosis

the reason for this my looks is this

I enjoy such heavenly

bliss and paradise at least

when I’m taking down a king

the blood of aristocracy

so sweet to tell them they’re not be

the aristocrat they thought

but a steeler of shadows and

the scum of earth in shadowlands

a king is born in creation place

the beginnings to manage this

let's call that king

that single beginning

how you come

before the change of pleasuredom

to learn and let go of all the lent

learn

let go of all that shadow and

of that blue blood that is for

us our food to put you down

you are not noble, you're not king

but you've stolen shadow see

you keep that much shadow for you

and just don't want to humble be

now my poetry ignites

as here we see the blood be red

that which I do leave alone

the red blood does not tempt me

only blue bloods to be put down

you’re not noble, you’re no king

and if you know such heights exist

you may find one all alone

no friends or no enemy

just tranquil serenity

I condemn you in your silence

it hurts me such that you don’t speak

my bite is that I’m all love

but if you only were with me

when I in my solitude

do blaspheme , oh freedom is my name

but the heights the ultimate

oh you’re no noble or no king

this is the message which I bring

you carry with you all that shade

someone owns that shadow see

all those servants shall you teach

they shall teach you courtesy

each and very on to their

profession one by one

and you shall learn oh many ones

a handy man a caretaker

you shall learn to understand

that you’re not noble or a king

this the message that I bring

I love my pie

oh will you die

my pie my pie

I was never tempted see

of that single Christ Messeeh

but compelled to honesty

shadow does always bow down

to his master the big light

that you see a sun and stars there too

all that darkness oh do cruisade

put down that bastard it's tailored for you

speak what ever shall come out

believe you're a creation of god

oh my pie

Starts walking away

will you die

my sweet cherry pie

oh I'm greatful you are mine

Stops in the back and faces the audience

looks at the pie and with a vampire movement attacks and eats the pie

Enter R

r

hey man

what you doing

oh you like pie

I almost didn't see you there

you aught to join the group

what's your name

van pie

van

my name is van

r

oh I see

say you look familiar

have I seen you before

you do look like a noble man

van

Squeeks like a cat

ksssss

im a vampire

THE vampire

it’s from my name

r

oh one of those blood suckers

van pie

no no no

that just bull shit

it’s just stories of people who admire me

I just don’t like kings and nobilities

I am crowned myself

I’m just over their in that neighbour country

I’m a highlander

I don't Suck blood

r

oh I see

you're. crowned

a nobility

van pie

Squeaks again

ksss

I'm not nobility

I'm a commoner

I have everything in common with everyone

In common with people, a commoner

I'm common

r

oh you gotta have some speciality

van pie

yes I have that

I am unique van pie

it's originally my name and just mine

so I have this in common with the greats

r

well then you're not common

you're special you see

van pie

well what ever speciality you've got

there is someone in time and space and value more than you

and then there is universially a people gathering

well, halowise to be same as you... in time

so

may be You are gathering halo wise .... for some one else's speciality

hence

you Might not be that original as you thought

so Scientology doesn't lose

all doors shall be open for you

r

and you can choose a new door, is that it

van pie

if you like

Music
From a distance
The pride festival coming closer

I was sort of surrounded by shadow people

like the sermon on the mount

like Jesus Christ

I was just sharing and confessing

all the time and in the end they attacked

there were daemons and archangels

touching

and hurting me

so I loved them in between the condemning
